

V1

F Dm7 Bb C
200 million years ago, walking on the earth
F Dm7 Bb C
Were super massive animals, with teeth and claws and fur
F Dm7
Some could swim and some could crawl
Bb C
But way more radical
Bb C
Is that God who made them's still alive and greater than them all

Chorus

F Dm7
God is bigger than a dinosaur
Bb C
Taller than a dinosaur
F Dm7
Wider than a dinosaur
Bb C
Roar! Roar! Roar!
F Dm7
God is older than a dinosaur
Bb C
Wiser than a dinosaur
F Dm7
More friendly than a dinosaur
Bb C
Roar! Roar! Roar!

V2

F Dm7 Bb C
So which one had the loudest roar, Tyrannosaurus Rex?
F Dm7 Bb C
And how did Stegosaurus bath or Diplodocus lay eggs?
F Dm7
Only God could know it all
Bb C
But way more radical
Bb
Is that He could bring them back to life
C
Now wouldn't that be cool?

Bridge

God is not extinct and not a fossil, He is alive (x4)
